

## SUGGESTED ROUTE FROM FLORENCE TO RADICONDOLI

From Florence follow the route towards the A1 Motorway Firenze-Certosa point of entry which is sign-posted also to Siena. (If you are in the city centre make for Porta Romana, Bottai and Galluzzo). At the roundabout close to the Firenze-Certosa motorway entry make your way across to the dual carriageway for Siena (*do not enter the A1 motorway leading towards Bologna and Roma but if coming from either direction exit at Firenze-Certosa and follow the rest of these instructions*). Stay on the dual carriageway towards Siena until you reach the Colle Val d'Elsa **Sud** exit. Here make for Colle Val d'Elsa for about 1 km until you reach a left turn sign-posted to Radicondoli. Stay on this road (SP541) until the junction in nearby Gracciano where the road divides up. Turn left towards Grosseto and follow this route. Stay on this road for about 10 km until you reach a right turn towards Radicondoli. You will recognise this turning as it is soon after a small petrol station also on your right. Follow the directions to Radicondoli which you will reach after about 13 km.

### How to get to the Convent

Once you reach the village, past the Post Office, follow the road down to your left which is sign-posted to Castelnuovo Val di Cecina (do not head for the town centre). Follow this route (paved and tree-lined on your left side) for about 200 metres until you reach the end of the paved area opposite to a Medieval Gate on your right. Now turn left down a steep local road, you will reach the Convent after about 300 metres at the end of the tarmac section.
